***P.S. You'll love our Grandma Guarantee***™. Not that we think all grandmothers are intimidated by electronics. But Pure Sight & Sound will make sure that even the most technology-challenged person feels comfortable operating your new system. We'll program a single touch-screen control for every piece of equipment in your theater—or your entire home. The bottom line is that we guarantee your Home Theater will be simple enough for everyone in the family to operate.

***P.P.S.*** You might like to know that our artist is a winner of multiple awards including a PPG Wintergardens award, and several first place finishes in Pennsylvania's Jazz Festival Motif show. He's had a solo exhibition at the prestigious Founders Room at Carnegie Mellon University and has been flown by private patrons to do paintings in Brittany, France... Torino, Italy ... Geneva, Switzerland as well as Germany and other countries.
